

Keiichi Kato, MD., PhD.

Dr. Kato is a board certified specialist in reproductive medicine and obstetrics and gynecology. Currently, he is general director of Kato Ladies Clinic, Tokyo, Japan. He advocates the use of natural cycle and minimal stimulation IVF to deliver safe, effective and patient-friendly ART.

Dr. Kato graduated from the School of Medicine of Kanazawa University in 2000 and had his residency training in obstetrics and gynecology in the Department of Obstetrics and Gynecology in the Kanazawa University Hospital. In 2004, he had further training in ART at the New Hope Fertility Center in NY, USA, before he went back in 2005 to the Department of Obstetrics and Gynecology in the Kanazawa University Hospital as a consultant. In 2009, he joined Kato Ladies Clinic as a practicing infertility specialist. Additionally, in 2015, he earned his PhD in medicine from the School of Medicine of Kanazawa University.

Dr. Kato is a board of director for the Japan Society of Fertilization and Implantation (JSFI) and Japan Association of Private Assisted Reproductive Technology Clinics and Laboratories (Japan A-PART).
