

Dr Bruno Paiva, BPharm, PhD, is a research fellow of the Departments of Haematology and Immunology at the Clinica Universidad de Navarra and CIMA, Pamplona, Spain. He is also the Director of the Flow Cytometry Core, and Scientific Coordinator of CIMA LAB Diagnostics, the Laboratory Diagnostic Core of the University of Navarra.

Dr Paiva's main area of expertise is the multiparameter flow cytometry analysis of haematological malignancies. His research focuses on improving the differential diagnosis, risk stratification, and monitoring of patients with monoclonal gammopathies (MGUS), smouldering and symptomatic multiple myeloma, Waldenström's macroglobulinaemia, and amyloidosis. He is an author or co-author of several publications in peer-reviewed journals.
