

Gillian M Lockwood, BM BCh. MA (Oxon) D. Phil FRCOG was Medical Director at Midland Fertility, Tamworth for 17 years and previously was Senior Clinical Research Fellow at the Oxford Fertility Unit, where her research interests included Polycystic Ovary Syndrome, Premature Ovarian Failure and Recurrent Miscarriage. She collaborated in Oxford with Professor Nigel Groome on the development and application of the new assays for inhibin and activin and her Doctoral Thesis was on the role of inhibin in ovulation and early pregnancy. She has subsequently undertaken extensive research in the use of AMH in fertility management. She lectures and broadcasts on ethical and social issues in Reproductive Medicine and was Vice Chair of the RCOG Ethics Committee.
